

CARTRIDGE FILTER CRYSTAL CLEAR WATER THE EASY WAY

COREX cartridge filter combines top-end filter performance with low maintenance. This dependable design uses special filter elements to strip tiny particles from your pool water particles as small as 30 microns (an average grain of beach sand is 1,000 microns). Our four-cartridge design provides maximum filter surface area to capture more dirt and extends time between cleaning. And cleaning is a snap. Open the top, remove the cartridges, hose them off and COREX is ready to go again.

We've maximized cartridge surface consistency to block and trap the maximum amount of solids, plus we use the most durable materials to extend cartridge life. COREX delivers commercial-grade performance that keeps pools clean and sparkling, day in and day out.

- Four-cartridge design traps more dirt and extends time between cleanings.
- Cartridges are easy to remove and rinse.
- Clamp ring allows easy access to cartridges and internal parts to speed service routines.
- 1" drain is easy to access and located to ensure complete draining during winterization.
- Fiberglass-reinforced polypropylene tank is strong and corrosion resistant for extra long life.

COREX BRAND PRODUCT

COREX brand identifies our "greenest" and most efficient equipment choices. Water flows very efficiently through the COREX filters, often allowing the use of smaller pumps or lower pump speeds to minimize energy use.

And when you rinse cartridges rather than backwash, you can significantly reduce water use, too.

Four cartridges in a compact design

COREX Pool cartridge filters contain four polyester cartridges that hold enormous amounts of dirt, yet are easy to clean. The fiberglass-reinforced tank halves are secured with an innovative clamp ring—just loosen the ring and remove the top half for easy cartridge access and rinsing. Filter maintenance doesn't get any easier.

- Continuous internal air bleed prevents air build-up to keep the filter operating at peak performance.
- Single-piece base and body for strength, stability and years of dependable service.

Cartridge Filter Dimensions			
Model#	Dim. A	Dim. B	Dim. C
CX-10701	1070mm	410mm	590mm
CX-10702	1220mm	410mm	590mm
CX-10703	1370mm	410mm	590MM

Model Number	Filter Area Sq.Ft.	Vertical* Clearance	Filter Diameter	Flow Rate GPM		Turnover Capacity-Res. (Gallons)
