Installation Criteria In the interests of safety, the recommended SPATA guide lines and standards should be followed. Reference to the 'Cage of Safety' is an area of water of sufficient size and depth with in the deep end of a pool of various dimensions that allows normal deck level diving with safety. Irrespective of the shape or profile of the pool, the 'Cage of Safety' shall be maintained. See SPATA standards. Important Note-for new installations, stainless steel supports are required when ordering boards. Baja Diving Boards are not suitable for use as a Spring board.
