

Self-priming pump. Efficient flow

- The **Marathon Max** pump is built to be quiet, durable and reliable.
- The motor materials are rustproof, with a stainless steel motor shaft and sealed bearings that never need lubrication. The thermoplastic housing is built to withstand extreme heat and resist corrosion.
- New **Marathon Max** can deliver cost benefits as it moves the same amount of water but consumes less energy than the previous model.
- It includes a pre-filter with a large strainer to prevent the entry of any foreign objects which could cause damage to the hydraulic parts of the pump.
- Large strainer basket extends time between cleaning.
- See-through lid makes inspections fast and easy.
- Options include a 316SS shaft for salt water. 230V and 60Hz motors as well as Thai, Australian and British connections.
- **TUV GS** Certified.

Its Hydraulic design moves water more efficiently and quietly than any other pump in its category,
