

Self-priming pump. Multi-purpose pump

- The **Wisper Plus** is user friendly, built with a see-through lid for easy inspection, easy-to-remove drain plugs and a large strainer to extend the time between cleaning.
- The motor materials are rustproof with a stainless steel motor shaft and sealed bearings that never need lubrication.
- The Thermoplastic housing is built to withstand extreme heat and resist corrosion.
- A new cover nut makes easy maintenance operations in the strainer.
- Every **Wisper Plus** pump is performance and pressure tested prior to shipment to ensure superior quality.
- Option include a 316SS shaft for salt water. 230V and 60Hz motors as well as Thai, Australian and British connections.
- **TUV GS** Certified.

All the materials have been selected with a unique target that is to make **Wisper Plus** strong and durable.
