22″ COMMERCIAL VACUUM HEAD

WITH SIDE BRUSHES

CX-T149D

PRODUCT OVERVIEW

The vacuum head is built for powerful, all-round cleaning performance. Its heavy-duty structure, paired with dual side and bottom brushes, delivers complete 360° coverage.

KEY FEATURES & BENEFITS

Dual Side & Bottom Brushes

Commercial use dual side and bottom brushes provide complete surface coverage, reaching every corner and edge of the pool.

Wide Cleaning Span

Covers more area in less time, reducing maintenance effort and ensuring faster results.

Reinforced Aluminium Handle

Adds superior durability and weight balance for smooth gliding and firm contact with pool surfaces.

Precision-Engineered Bristles

Captures fine dirt, algae, and stubborn buildup with bristles that protect pool liners.

Pool Surface Applications

Perfectly suited for tiled, marble, and concrete pools where strength and deep scrubbing are essential.

Built for Power & Performance

Combines rugged construction with effortless handling, delivering a professional-grade clean every time.

MATERIALS & CONSTRUCTION

Reinforced Aluminium Handle

Source-specified aluminium handle supports durability and weight balance.

Dual Side & Bottom Brushes

Precision-engineered bristles capture fine dirt, algae and stubborn buildup. Bristle material grade is not specified.

LENGTH	WIDTH	HEIGHT
