DIVING BOARD

Product Overview & Model Range

BAJA PRE-DRILLED DIVING BOARDS

Baja diving boards are available in 6', 8' and 10' options. Stainless steel supports are listed separately for new installations.

Board Construction

The 10' Baja board is supplied with aluminium reinforcing.

Stainless Steel Supports

Separate support options are identified by codes CXDV-12 and CXDV-15.

Important Application Note

Baja Diving Boards are not suitable for use as a Spring board.

BAJA PRE-DRILLED DIVING BOARDS - MODEL RANGE

CODE	DESCRIPTION
CXDV-6	6' Baja board only
CXDV-8	8' Baja board only
CXDV-10	10' Baja board only with aluminium reinforcing
CXDV-12	12" x 1.5" diameter stainless steel supports for CXDV6
CXDV-15	15" x 1.5" diameter stainless steel supports for CXDV10

INSTALLATION CRITERIA

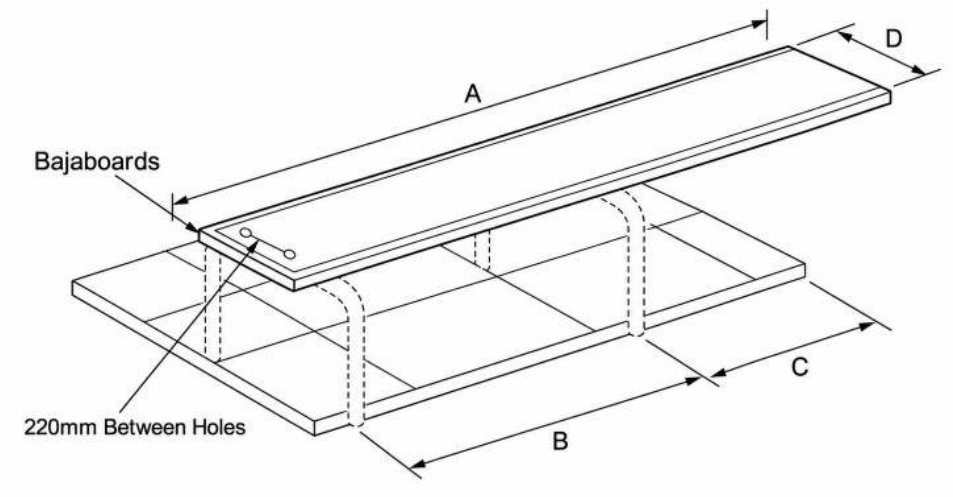

In the interests of safety, the recommended SPATA guide lines and standards should be followed. Reference to the "Cage of Safety" is an area of water of sufficient size and depth within the deep end of a pool of various dimensions that allows normal deck level diving with safety. Irrespective of the shape or profile of the pool, the "Cage of Safety" shall be maintained. See SPATA standards.

Important Note: For new installations, stainless steel supports are required when ordering boards. Baja Diving Boards are not suitable for use as a Spring board.
