GUTTER DRAIN

White ABS & PVC • CX-40116

PRODUCT OVERVIEW

The Gutter Drain is expertly designed to provide efficient water management and overflow control in pool systems. Crafted from a premium blend of ABS and PVC, it offers an ideal combination of strength, flexibility, and chemical resistance. With impressive flow rate options of 150 L/min for 1.5″ and 235 L/min for 2.0″ configurations, it efficiently directs excess water from pool edges into the filtration system. The precision-engineered slotted surface allows smooth drainage while preventing debris accumulation or clogging. Its clean white finish enhances the pool's overall appearance while reflecting a high-quality, professional build. Engineered for performance and endurance, it remains reliable even under continuous operation.

KEY FEATURES & BENEFITS

Hybrid ABS & PVC Construction

Superior durability with added flexibility for long-term use.

Dual Flow Rate Options

150 L/min (1.5″) and 235 L/min (2.0″) accommodate different pool capacities.

Precision Slotted Design

Rapid water discharge while preventing debris buildup and clogging.

Smooth White Finish

Enhances visual appeal and complements modern pool designs.

Leak-Proof Structure

Consistent performance in both indoor and outdoor installations.

Efficient Overflow Management

Maintains balanced water levels and optimal filtration system flow.

GUTTER DRAIN

MATERIALS & CONSTRUCTION

Premium ABS & PVC Blend

Hybrid construction combines strength, flexibility, and chemical resistance. The compact, durable design features a clean white finish for indoor and outdoor pool installations.

Technical Datasheet & Product Views

TECHNICAL DATASHEET

Code	Color	Material	Description	Flow Rate (L/min)	L	W	H
CX-40116	White	ABS & PVC	Heavy-duty ABS	150 (1.5″) | 235 (2.0″)	114mm	73mm	102mm

Source check: the table states 114mm × 73mm × 102mm; the supplied drawing labels are 112, 73, 99, 36 and D. Values are retained unchanged. D has no numeric value in the source; reconcile dimensions before final print artwork.

EXPLODED VIEW

The source supplies assembled product and dimensional views only. No exploded drawing or component register is provided.

FOR ALL THE RIGHT REASONS...

This drain’s compact and durable design makes it suitable for both indoor and outdoor pool installations. The leak-proof structure ensures stability under varying water pressures, maintaining consistent drainage efficiency over time. Its thoughtful engineering supports quick installation and easy maintenance, reducing downtime and operational effort. By preventing standing water or overflow issues, it helps maintain a cleaner pool environment and prolongs the lifespan of the filtration system. Ideal for residential, commercial, and recreational facilities alike, the Gutter Drain delivers a perfect balance of functionality, aesthetics, and long-term dependability.
