ROUND MAIN DRAIN COVER

White ABS • CX-40113 / CX-40114

PRODUCT OVERVIEW

Round main drain covers for dependable water removal and balanced circulation. Two white ABS models serve residential, spa and commercial pool applications.

ROUND MAIN DRAIN COVER

KEY FEATURES & BENEFITS

Precision-Engineered ABS

Both models offer exceptional strength, chemical resistance and UV stability.

Two Size Options

7″×7″ and 9″×9″ sizes for medium to large pool systems.

Optimized Flow Rates

558 L/min and 710 L/min for smooth circulation and faster filtration.

Safety-Focused Grid Design

Grid patterns are designed to minimize suction risks while maintaining hydraulic performance.

Easy Installation & Cleaning

Compact, sturdy builds allow quick installation, easy cleaning and long-term reliability.

Versatile Applications

For residential, spa and commercial applications requiring dependable, high-flow drainage.

MATERIALS & CONSTRUCTION

Premium-Grade White ABS

Resistance to pool chemicals, UV rays and prolonged water exposure. Durable construction for long-term reliability and consistent performance under heavy load.

MODEL RANGE

CX-40113	CX-40114

FOR ALL THE RIGHT REASONS...

Engineered for professional-grade pool systems, both models combine functionality with safety-driven design. The perforated covers minimize turbulence and maintain continuous water movement, optimizing filtration efficiency. Their robust ABS structure prevents deformation and guarantees mechanical strength over extended use. Easy to install and maintain, they fit seamlessly into various pool flooring types - from residential spas to large commercial facilities. The combination of compact design and efficient operation ensures stability, reduced maintenance, and enhanced pool hygiene. Whether upgrading or installing new systems, these drain covers offer a dependable solution that upholds both performance and safety standards.
