# STANDARD SKIMMER

**17 Ltr Capacity • CX-40109**

## PRODUCT OVERVIEW

A compact skimmer for medium-sized pools, engineered for consistent surface cleaning, steady suction power and balanced water flow.

CX-40109 • STANDARD SKIMMER

## KEY FEATURES & BENEFITS

### Compact Efficiency

Designed for stable surface cleaning performance in medium-sized pools with consistent suction power.

### Durable ABS Build

Robust 2.33 kg construction for long-term reliability and resistance to pool chemicals.

### Precision Fit Design

A: 201 mm, B: 140 mm, C: 416 mm, D: 111 mm allow installation in limited spaces.

### Smooth Operation

Standard throat design promotes steady water flow and effective debris collection with minimal turbulence.

### Easy Maintenance Access

230×230 mm square cover for simple inspection and quick cleaning routines.

### Reliable Pool Hygiene

Continuous skimming action keeps water clean, clear and free of floating impurities.

## MATERIALS & CONSTRUCTION

### High-Strength ABS

Designed to withstand harsh pool environments, including exposure to chlorine and UV rays.

## MODEL RANGE • 17 Ltr

**CX-40109**

Square cover • Standard throat

Net weight 2.33 kg

### EXPLODED VIEW & PRODUCT REFERENCE

Source provides assembled views only; no exploded drawing or parts register is supplied.

**FOR ALL THE RIGHT REASONS...**

The Standard Skimmer is a precisely engineered solution for maintaining crystal-clear pool surfaces with consistent efficiency. Its compact structure allows seamless integration into medium-sized pools without compromising suction power or flow balance. Constructed from high-strength ABS, it withstands harsh pool environments, including exposure to chlorine and UV rays. The standard throat design ensures steady water intake, minimizing turbulence and enhancing debris capture. Its robust 2.33 kg build reflects superior quality control, ensuring years of reliable performance. This model is ideal for professional installations demanding durability and ease of service.
