WALL CONDUIT THREAD 2″

UV White ABS • CX-40107

PRODUCT OVERVIEW

The Wall Conduit Thread 2″ is precision-engineered to provide safe and efficient routing for electrical cables through pool walls. Its robust 2-inch threaded design ensures a secure, watertight seal that prevents leakage and maintains electrical safety in underwater conditions. Made from premium-grade ABS, it offers excellent resistance to corrosion, pool chemicals, and UV exposure. This durable construction guarantees long-term performance, even in challenging pool environments. The conduit's smooth internal surface allows easy cable passage without abrasion or snagging. Perfectly suited for professional installations that demand both safety and reliability.

KEY FEATURES & BENEFITS

Secure Cable Routing

Designed to provide safe and efficient passage of electrical wiring through pool walls.

2-Inch Threaded Connection

Ensures a firm, leak-proof fit for reliable underwater conduit installations.

High-Grade ABS Construction

Offers superior strength with resistance to corrosion, pool chemicals, and UV exposure.

Enhanced Electrical Safety

Maintains full insulation and protection for cables in submerged environments.

Easy Installation & Longevity

Engineered for quick setup with durable performance over extended use.

Ideal for Professional Builds

Perfect for commercial and residential pool projects requiring safe wiring solutions.

MATERIALS & CONSTRUCTION

Premium-Grade ABS

UV White, high-impact ABS construction. Resistant to corrosion, pool chemicals, and UV exposure. Smooth internal surfaces allow cable passage without abrasion or snagging.

Technical Datasheet & Product Views

TECHNICAL DATASHEET

Code	Color	Material	Description	Flow Rate (L/min)	L	W	H
CX-40107	UV White	ABS	2″ Thread	240	381mm	51mm	51mm

TECHNICAL DRAWING • FACE & SIDE VIEWS

SUPPLIED DIMENSIONAL DRAWING

Source check: table values and supplied drawing labels are retained independently, exactly as provided. The drawing does not identify the table's L / W / H dimensions; no values have been inferred or substituted.

EXPLODED VIEW

The source supplies assembled conduit photographs and dimensional views only. No exploded assembly drawing or component register is provided.

FOR ALL THE RIGHT REASONS...

Engineered for functionality and endurance, the Wall Conduit Thread 2″ ensures stable and protected cable management in all types of pool construction. Its precision threading simplifies installation while delivering a tight and dependable connection. The high-impact ABS body maintains structural integrity under pressure and environmental stress, ensuring years of maintenance-free service. Designed to meet modern pool safety standards, it protects electrical systems from moisture and external damage. Whether for new builds or system upgrades, this conduit ensures efficient, secure wiring pathways. A trusted choice for engineers and pool professionals who value precision and protection.
